Self-Erecting Mobile Tower Cranes

BJW Crane Hire are specialist suppliers of the popular self erecting mobile tower cranes, offering 4, 5 and 6 axle machines.

Self-erecting mobile tower cranes combine the versatility of a telescopic crane with the reach of a conventional tower crane in one machine, with no expensive set up costs or the need for long term hire commitments.

Offering both crane hire and full contract lifting services, we are committed to providing all our customers with quality cranes and excellent service at competitive rates.

Benefits:

- Ideal for working in confined spaces at a long radius.
- Faster operational speed producing increased productivity.
- Fast rigging time, as quick as 15-20 minutes dependant on site conditions.
- The ability to operate by remote control.
- Can work at wind speeds.
- Crane operators have an aerial view of the site and load, leading to an increase in safety.
- The ability to zone or limit the area of operation.
